Professional Summary

Senior Full-Stack Engineer with 6+ years of experience designing and building scalable web applications, microservices, and automated workflows. Proven track record in TypeScript, Node.js, React, Python, and cloud infrastructure.

Technical Skills

- **Languages:** TypeScript, JavaScript, Python, SQL, HTML/CSS
- **Frameworks & Libraries:** Node.js, Express, React, Next.js, FastAPI
- **Tools & Infrastructure:** Docker, Git, CI/CD pipelines, AWS (S3, EC2, Lambda), PostgreSQL, Redis
- **AI & LLMs:** Prompt engineering, LLM integration, OpenAI API, LangChain

Professional Experience

Senior Software Engineer | TechNova Solutions 2022 – Present

- Architected and deployed microservices backend using TypeScript and Node.js serving over 500,000 active monthly users.
- Reduced API response latency by 35% by optimizing database queries and implementing Redis caching.
- Mentored 4 junior engineers and led sprint planning for a team of 6 software developers.

Software Engineer | DataPulse Systems 2019 – 2022

- Built responsive web dashboards in React and TypeScript integrated with real-time WebSocket feeds.
- Automated deployment pipelines using GitHub Actions and Docker, cutting deployment time from 40 to 10 minutes.
- Integrated third-party REST APIs and payment gateways with robust error handling and retry strategies.

Education

Bachelor of Science in Computer Science 2015 – 2019
University of Techland, Honors Graduate
